Rex & Burmese Cat Fanciers of South Australia Inc

BREEDERS CODE OF ETHICS

As a breeder of Rex Cats and/or Burmese, I declare that:

1. I am a registered breeder and I will honour the Code of Ethics recommendations and/or guidelines, of the Governing Body that I am registered with.
2. I will not mate a female at an age that will compromise her welfare, or over-breed a queen, ensuring that she has no more than two litters in any twelve month period.
3. I will not allow entire cats under my care to roam free, in order to prevent mis-matings and spread of disease.
4. I will ensure that the purchaser of a stud male is fully aware of the care and facilities needed for an entire male cat.
5. I will not participate in the practice of selling-on entire cats with the knowledge that they will be re-homed in an entire state more than 3 times again.
6.
 - a) I will de-sex all adult cats prior to sale, to prevent unwanted and crossbred litters.
 - b) South Australian breeders: I will de-sex all kittens prior to sale, unless they are going to a registered breeder, as long as it is not detrimental to the health of the kitten, as judged by a vet experienced in early desexing.
 - c) Breeders outside South Australia: I will de-sex all kittens prior to sale, unless they are going to a registered breeder (as in b)), OR make arrangements with the client for the neutering/spaying of the kitten at an agreed time after the kitten is sold and proof of the neutering/spaying be sent to the breeder.
7. At the time of sale of a cat/kitten, I will provide general and breed-specific information, a current vaccination certificate and offer full after-sales support.
8. I will have any kittens/cats affected by serious illness or injury, which is not otherwise treatable and severely affects their quality of life, humanely euthanised by a veterinarian.
9. I will only place cats/kittens where there is a reasonable expectation of a happy and healthy life for the animal. I will advise all persons acquiring cats/kittens from me about responsible cat ownership recommendations at the time of initial enquiry.
10. I will ensure that each kitten is fully weaned, healthy, litter trained and socialised before sale.
11. I will not knowingly falsely advertise or misrepresent the characteristics of the breed or individual cat to the purchaser and interested parties.
12. I will offer help with re-homing of cats/kittens that I have bred or owned previously if circumstances require the cat be found a new home.

Any member failing to abide by the RBCFSA Code of Ethics may face disciplinary action, including expulsion from the club, as specified in Section 9 of the constitution. Referral to the relevant governing body may also occur.

In addition the RCBFSA strongly recommend that:

- Breeders supply purchasers with a detailed receipt and three or four generation pedigree.
- Breeders outside South Australia contact the club when they are sending an entire kitten, not for the purpose of breeding, to South Australia, so the club can offer assistance with desexing of the kitten.
