Show Manager: Marion Kidd

Time Table

In-Line Vetting	7.30 – 8.30 am
Judging Commences	9.00 am
Close of Show - near as practicable to	3.30 pm

From the Show Committee

Welcome to our first show in 2 years, with COVID and personal illness it's been a long time getting from there to here.

Many hands have made for light work and thus many thanks to be proffered:

Our tireless volunteers who have unwaveringly stepped unto the breech once more-Nell Evans for taking on the role of Entry Officer, Marion Kidd for taking up the reigns of Show Manager, David Walker who didn't hesitate when asked about kitchen duty.

Our band of sponsors like Brenton at NissCare or Danny at Semaphore Fodder or Dennis & Sue of Arkaba Meats and Densue Burmese respectively, the team at Animal Travel, Wombaroo (Passwell) and PetZone. MAVLAB (FIDO), Brookside Burmese and Conroy's Smallgoods. The Governing Council panel of sponsors (Purina, Oz-Pet, CatPad Enclosures, Eye Envy Australia and ThePetCalmer) and co-ordinator, Judith Jordan.

Our vet, Dr James of Angle Park Vet, and vet nurses who like us do these things such as giving up a morning for the same reason we do, the love of it.

Our judges who come from near and far to endow us with their knowledge and experience, and hopefully some challenge certificates.

Those good folk like Judith Adams, Tressa Corvino, Jenny Edwards, Melissa Neumann & Leo Pugliese and Pam Worsely who have donated personally as well as professionally.

A particular thanks to Wane for towing the trailer

Carni-Vite

Meat Supplement for Carnivores including dogs, cats & ferrets

Use to supplement the meat diet of pet carnivores, to provide balanced levels of vitamins, minerals and essential nutrients.

About meat diets

Carnivores have evolved to eat a range of whole prey items that include bones, internal organs and meat, thus providing a balanced diet. Pets however, are often fed only the meat portion, which may be deficient in minerals (such as calcium), vitamins, and essential nutrients like fatty acids and taurine.

Carni-Vite

Supplies a range of essential nutrients that, when added to meat, provides a complete and balanced diet for carnivores.

Ingredients

Vitamins, minerals, essential fatty acids (omega-3 & 6), taurine, carotenoids.

Dosage

Add 5g of Carni-Vite per 500g of de-boned, eviscerated meat or fish and mix in well.

Do not use with already fortified diets or other vitamin/mineral preparations.

Available in 100g, 500g & 1kg packs.

Manufactured by Passwell Pty Ltd - Ph (08) 8391 1713 - www.wombaroo.com.au

WOMBAROO CAT MILK REPLACER

A nutritionally balanced milk substitute for kittens of all breeds. Use for orphaned kittens or when the mother's milk is limited.

About Cat Milk

Different species of mammals produce milks of different composition in order to nourish their young. The table below outlines the differences between normal cow's milk and cat's milk.

Milk	Cow	Cat
Solids (g/litre)	127	205
Protein %	27	41
Fat %	29	29
Carbohydrate %	38	23
Energy (kJ/litre)	2700	4400
Taurine (mg/litre)	8.3	359

Cat's milk contains relatively high levels of protein with only moderate amounts of carbohydrate (lactose). The protein in cat's milk contains up to 50% whey protein which is readily digestible, compared to cow's milk which is 80% curd-forming casein. Cat's milk also contains high levels of taurine which is an essential nutrient for the growth and development of healthy kittens. A deficiency of taurine can lead to a range of serious problems including reduced growth rates, blindness and heart failure.

Benefits of Wombaroo

- ✓ **Like Mother's Milk** – formulated to match the composition of queens's milk, with added vitamins, minerals and essential fatty acids (omega 3 & 6).
- ✓ **High in Protein** – including whey protein for improved growth rate of kittens.
- ✓ **Elevated Taurine Content** – essential for vision, heart and brain development.

Using Cat Milk Replacer

- Success in rearing kittens greatly improves if they receive colostrum at birth. Kittens that don't get colostrum from the mother can be fed **Impact Colostrum Supplement**.
- Commence feeding milk formula after the initial feeds of colostrum. Make up Wombaroo at a concentration of 215g per litre, in accordance with the directions on the pack.
- Milk can be stored in the fridge for a day or frozen for up to 2 weeks. Small quantities can be frozen in ice-cube trays, so that the required daily feed volumes can be easily thawed out.
- When feeding, warm milk to about 35°C and feed from a bottle and teat (A **Wombaroo C** type teat is recommended).
- Refer to the guidelines on the pack for feed rates. Do not overfeed as this can lead to diarrhoea.
- Weigh kittens regularly to verify consistent weight gains. Body weight should increase by about 10-15g per day.

Ingredients:

Whole milk solids, whey protein, casein, vegetable oils, omega-3 & omega-6 fatty acids, taurine, vitamins A, B₁, B₂, B₃, B₅, B₆, B₉, B₁₂, C, D₃, E, K, biotin, choline, inositol, calcium, phosphorus, potassium, sodium, magnesium, zinc, iron, manganese, copper, iodine, selenium.

Analysis:	Protein	43%
	Fat	27%
	Ash	5%
	Moisture	4%
	Energy	21 MJ/kg

Available in 215g, 1kg, 5kg & 20kg packs.

Manufactured by Wombaroo Food Products • Ph (08) 8391 1713 • www.wombaroo.com.au
